Construction Workforce Action Update:

The Construction Workforce ordinance applies to all construction contracts the City entered into after September 1, 2007, that require more than 800 construction labor hours exceeds an estimated cost of \$300,000. On February 15, 2009, the Statutory Agencies adopted the City's Construction Employment Program as embodied in Ordinance No. 070504. The Workforce Ordinance under Chapter 38 was repealed in its entirety February 1, 2013, and replaced with Ordinance 130275, Sections 3-501 thru 3-527. All projects (including public, private project with City funding and Statutory Agency projects) that started after May 1, 2013, are subject to the monitoring and penalties set forth therein.

Under the Ordinance, the Prime contractors are to self-report worker hours for their Company-wide construction workforce in the Kansas City Metropolitan Statistical Area (KCMSA). Primes are also required to self-report worker hours on specific projects funded by the City or that are tax incentivized. Subcontractors are only required to report their Project-specific worker hours.

The established workforce participation goals for minority and female workers are 10 percent (10%) and 2 percent (2%) respectively. The hours for the 4th Quarter 2017-18 are depicted in the titled "4th Quarter 2017-18 Detail Report". This report consists of KCMO City projects and Statutory Agency projects that have a Contractor Utilization Plan (CUP) on file. Below is a synopsis of the workforce hour totals for the 4th Quarter 2017-18:

	Total	Minority	*%	Female	%	KCMO	*%

Note: The number Primes reporting decreased due to projects in close-out status during the 4th Quarter 2018.

*These subcontractor audits were not approved by the respective Primes due to an error in the subcontractor-submitted reports (e.g. payrolls not matching workforce hours entered, etc.).

Statutory Agency Projects

The Advance KC Initiative has designated the Economic Development Corporation's (EDC) Office as the central point of entry for those entities seeking a tax incentive in the KCMO area. There are a total of fifty-eight (58) Statutory Agency projects that meet the workforce reporting requirement. The following is a listing of the projects that have begun construction or have initiated communication with HRD for compliance purposes. Human Relations Department Workforce Craft Report Narrative 4th Quarter 2018

Each month, Prime Contractors are required to submit at least two (2) workforce reports. Those reports are: Company-wide Prime & Project-specific Prime monthly workforce reports. These reports are consolidated to make the quarterly report for compliance purposes under the City Code. Subcontractors are required to submit Project-specific monthly workforce reports. The Contractor's company-wide data for construction project(s) combines their work across the Kansas City Metropolitan Statistical Area. The subcontractors' data is combined for cumulative reporting on the particular project. HRD extracts the data from B2GNow and compiles the data in the various reports.

The Craft Report details the workforce by craft, skill level, sex, and ethnicity. This report is composed of three (3) spreadsheets: Company-wide Prime, Project-specific Prime and Project-specific Subcontractor. The spreadsheets are a categorized tabulation of every report submitted for the month of September. The spreadsheets follow this narrative explanation.

The spreadsheets are read as follows: the left column lists the scopes of work by both craft (labor, pipefitter, etc.) and skill level (i.e. Apprentice, Journeyman, etc.). The rows define the workers by sex and ethnicity. The last column tabulates KCMO residents. At the bottom of each spreadsheet, you will find the total number for each of the sex and ethnicity.

Below is a summary of the Craft Reports for 4th Quarter 2017-18:

	Total	Minority	*%	Female	%	KCMO	*%
Company-wide prime	1,336,952	151,547	11	49,157	4	126,784	9
Project-specific prime	146,125	20,718	14	6,218	4	8,708	6
Project Specific subcontractor	514,609	130,169	25	13,289	3	41,224	8

Human Relations Department Workforce Detail Report Narrative 4th Quarter 2017-18

Report explanation:

Each month, Prime Contractors and the Subcontractors are required to submit individual reports of their firm's worker hours. A Company-wide report and Project-specific report are required from each Prime contractor; but only a Project-specific report is required of the Subcontractor. This information is reported through the online diversity management system, B2GNow and then submitted to HRD. HRD compiles the data into the attached spreadsheet in order to monitor compliance with the Program.

The Company-wide report contains data for all workers performing work on construction projects across the Kansas City Metropolitan Statistical Area (KCMSA). The Project-specific report contains data for all workers performing work on projects that are City funded or tax incentivized.

This report also includes Statutory Agencies (quasi-governmental entities) that provide tax abatement or other tax incentives for construction projects that exceed the monetary thresholds for the Construction Employment Program. As of 2009, HRD began monitoring the workforce component of projects originating from these agencies as well as contract compliance with M/WBE goals. HRD is currently responsible for monitoring MWBE and Workforce compliance on projects through the following agencies: TIF, LCRA, Ch.353, Ch. 100, PIEA and the Port Authority.

Prime Contractors and their Subcontractors are encouraged to maintain a level of 10% minority worker hours and 2% female worker hours throughout the lifetime of the City or tax-incentivized projects *or* to make a good faith effort to do so.

Per Ordinance, failures to make a good faith effort to meet the workforce goals are reviewed for Liquidated damages (LDs) on a quarterly basis.

NOTE: All information is self-reported by the individual firms. No data is entered by the Human Relations Department Staff. Staff compiles the data collected into the attached report.
